Subject: Diamond RM 10.9 Mtg on 9/13/12 - Agenda

Bill and Carol,

Following is the agenda for our meeting tomorrow from 10 am to noon:

1. EPA meets jointly with representatives of CPG and Occidental/Tierra: review CPG explanation of options for handling material generated during RM 10.9 removal set forth in letter dated 9/7/2012. Focus will be on questions concerning permitting and logistics. (30 to 40 minutes)
2. EPA meets separately with Occidental/Tierra: discuss Occidental/Tierra questions and comments with regard to CPG letter dated 9/7/2012. (15 to 20 minutes)
3. Resume joint meeting: additional discussion of CPG options set forth in letter dated 9/7/2012. (15 to 20 minutes)
4. EPA meets separately with CPG: discuss any remaining questions about options for handling sediment and viability of UPF. (EPA anticipates that the CPG representatives could depart after this discussion, other than those remaining for technical discussions with EPA on a separate matter.) (15 to 20 minutes)
5. EPA meets separately with Occidental/Tierra: discuss UPF, participation and cooperation. (20 to 30 minutes)

Reminder: As yet, the CPG has not indicated who will attend on its behalf. Since discussion is focused on technical issues, EPA is anticipating that Mike Barbara and Robert Law will participate.

EPA has reserved two rooms on the 30th floor to more conveniently conduct the meeting. However, as per our previous instructions, please come to the 17th floor when you first arrive. We look forward to meeting with you.

Regards,

-Sarah
